

10m Optical Thunderbolt Cable – Male to Male

StarTech ID: TBOLTOMM10M

This 10m (32.8ft) Optical Thunderbolt™ cable offers a connection distance of up to 10 meters - enough length to position your Thunderbolt devices as needed, and because the cable uses optical fiber instead of copper, you won't have to worry about signal loss or EMI interference.

A dependable, high-quality solution for harnessing the speed and power of your Thunderbolt peripherals, this optical cable combines both data and video into a single high-performance cable, with bi-directional data transfer capability.

The TBOLTOMM10M supports both Thunderbolt 1 (10Gbps) and Thunderbolt 2 (20Gbps) devices and can link compatible devices as part of a daisy-chained connection.

This optical cable is designed to provide a reliable connection for your Thunderbolt devices and is backed by our 2-year Manufacturer's Warranty.

Applications

- Connect a Thunderbolt-equipped external drive enclosure or RAID array
- Connect two Thunderbolt-equipped Mac® computers, for Target Disk Mode file transfers
- Connect a Thunderbolt-equipped MacBook Pro® to an iMac®, to use the iMac as the display for the MacBook Pro

Features

- Compatible with Thunderbolt 1 and Thunderbolt 2 specifications
- Supports native peer-to-peer file sharing when supported by the OS
- EMI/RFI immunity
